Be a part of the action.

Our mission is to establish the Garden District as the heart of the community. We are working to strengthen and bring cohesion to our district by fostering support through public and private resources with the common goal of rejuvenating and promoting a district that enhances the entire community. To that end we desire to create a lush, native, green environment, which promotes the Audubon Park Business District, Leu Gardens, and the local community, while still retaining our unique and funky feel. So we invite you to partner with us and help in these efforts by becoming an Audubon Park Garden District Member today.
